

```
#Day 2 : Python zero to Hero
a="hello coders"
inp=input("enter a letter: ")
if inp==a[0].lower() or inp==a[1].lower() or inp==a[4].lower() or inp==a[6].lower() or inp
    print("you get the prize")
else:
    print("you are guessing is wrong")

    enter a letter: a
    you are guessing is wrong
```
